Application/Control Number: 09/382,834

Art Unit: 2858

1. Claims 29,35 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

It appears that the original specification does not have support for the limitations of "the flexible contact elements deflect away from the original shape when said flexible contacts contact the leectronic components; the flexible contact elements substantially return to the original shape when the flexible contact elements are withdrawn from contacting the electronic component" as recited in claim 29.

2. Claims 42-52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 42, it is unclear what "socket" represents. Is it shown in any of drawings? 45, it is unclear how a probe card "is interrelated and associated with the first substrate". In claim 49, it is unclear what "means, within each of the first substrate" and "plurality of first substrates" represent. Are they shown in any of drawings? In claim 51, "said second substrates" has not been recited previously, therefore this term is indefinite. In claim 52, it is unclear what "a plurality of said second substrates" represent. Are they shown in any of drawings? "said second substrates" has not been recited previously, therefore this term is indefinite.

Application/Control Number: 09/382,834

Art Unit: 2858

The dependent claims not specifically address share the same indefiniteness as they depend from rejected base claims.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 30-51 (insofar as understood) are rejected under 35 U.S.C. 102(b) as being anticipated by Bove et al (Pat # 4,038,599).

As to claims 30-34,35,38,39-41,43-51, Bove et al disclose a high density wafer contacting and test system having a second substrate (20) with a plurality of flexible contact elements (19) for making contact with the dies or integrated circuits formed on the wafer ("16" as Packaging substrate), a first substrate or transformer (13) with a first plurality of conductive lands (13a) for electrically connecting to the second substrate (20) and an electrical testing apparatus (14,15) electrically connected to the first and second substrate through a plurality of electrical connections (11,13). It appears that the probe elements (19) are flexible. As to claim 36, it appears that the end of each probe (19) has a protuberance. As to claim 37, it appears that the probes (19) are shaped wires disposed on the surface of the second substrate. As to claim 42, it appears that the second substrate is aligned to the first substrate by a socket (17a). As to claims

Application/Control Number: 09/382,834

Art Unit: 2858

45 and 47-48, it appears that the probes (19) are free standing flexible conductors.

- 5. Applicant's arguments with respect to claims 29-52 filed on 05/30/2001 have been considered but are moot in view of the new ground(s) of rejection.
- 6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to VINH P. NGUYEN whose telephone number is (703) 305-4914.
